Fall 2019 Colloquium Speakers

8/23/2019   Dr. Naian Liao – Chongqing University, China
Title: Wiener-type boundary estimates for elliptic and parabolic equations

9/27/2019   Dr. Linda Allen – Texas Tech University, Lubbock, Texas
Title: Probability of Zoonotic Spillover in a Fluctuating Environment

Dr. Ed Allen – Texas Tech University, Lubbock, Texas
Title: Environmental Variability is SDE Models of Biological Systems and Modeling Surface Roughness Progression

10/18/2019   Dr. Zhenghan Wang – University of California, Santa Barbara
Title: Introduction to topological quantum computing

12/6/2019   Dr. Claudia Polini – Rutgers University, New Jersey

Dr. Bernd Ulrich - Purdue University, Indiana
